Project Management Services

Nelito's aim is to assist clients in realising their strategic and corporate goals through rapid implementation methodology. For over a decade, Nelito has been on the forefront in undertaking information technology projects across the country for various clients in BFSI segment. The PMS Division of Nelito comprises of Subject Matter Experts (SMEs) and professionals with PMP, QPMP and CISA certifications. All the professionals possess rich Banking and Finance domain knowledge on account of their association with leading Banks in the country in executing multiple and concurrent projects.

Since 1995, Nelito has successfully executed information technology projects for leading Nationalized Banks and Rural Banks and it has been able to reach the remotest service outlets of our clients through our nation-wide presence from over 93 locations. Nelito also partners with leading Technology providers to successfully implement turnkey projects to exceed the expectations of the clients. Company deploys high quality resources to accomplish this task. Timely knowledge transfer as part of project execution has enabled Nelito to obtain repeat business from the clients, which is the testimony to its successful model. Proven project management methodology enables the Company to kick-start the projects within a shortest possible time and to conclude them as per agreed timelines with highest quality deliverables.
