

## Case Study | Nelito Systems Ltd. Has successfully implemented Data Archival and Retrieval Solution (FinDART) at The Jammu and Kashmir Bank Ltd, Srinagar.

The Jammu and Kashmir Bank Ltd (J & K Bank), a private sector bank headquartered in Srinagar, commenced its business in the year 1939. The bank functions as a universal bank in Jammu & Kashmir and as a specialized bank in the rest of the country. It is only private sector bank designated as RBI's agent for banking business, and carries out the banking business of the Central Government, besides collecting central taxes for CBDT. The Bank has an ATM network at 1000+ locations and 1023 branches in the country.

The Bank has put in place a robust IT infrastructure with Finacle as core banking software (CBS) platform running in all Business Units. Besides Bank is offering facilities like e-banking, mobile banking, Insurance business tie-ups, Demat and Share trading facilities, Credit Card Business & is handling State Govt. business as an agent of RBI.

### Facts & Figures

- **Client Name:** The Jammu and Kashmir Bank Ltd (J&K Bank)
- **Branches (#):** 1000+ Branches
- **Servers:** 2 (FinDART Database and Application Servers)
- **Location:** J&K Bank, Zonal Office, Jammu.
- **Time taken:** 10+ Months
- **Supplier:** Nelito Systems Ltd.
- **Solution Implemented:** FinCraft™ Data Archival and Retrieval Solution (FinDART)

J & K Bank approached Nelito with the following key requirements;

- To reduce storage and backup management costs by leveraging on the bank's existing data
- storage investments more efficiently, and minimize costly upgrades of legacy software
- To increase performance and efficiency. Achieve space efficient backups by using archival and data de-duplication technologies
- To ensure regulatory compliance and regulation, policies for data retention on disk / tapes
- To provide MIS and reports for internal purpose and regulatory reporting
- To develop a search feature of record

Based on Nelito's rich experience of successfully implementing FinDART in leading Banks and its capabilities to add significant value to the project, J & K bank shortlisted Nelito's FinDART Solution for implementing the solution at its head office branch.

Nelito successfully archived data of 4 source systems and was able to provide reports on the basis of scope of work with the help of Nelito's FinDART Solution.

### Following are the Implementation Highlights with single point responsibility:

- On basis of deep analysis of the entire scope of work, and studying the Bank's existing data, Nelito came up with the best solution and services to fulfil Bank's requirements
- Delivered Archival solution for legacies (B2K, Nelco, Kale, IBR) and was able to develop reports as requested by the bank
- Provided training to bank's project team & user team and covered both classroom and hands on.
- Ensured regulatory compliance and regulation, policies for data retention on disk / tapes

### Benefits achieved by our client after upgrades of legacy software:

- Increased performance and efficiency. Achieve space efficient backups by using archival and data de-duplication technologies
- Extraction of MIS and reports for internal purpose and regulatory reporting
- Provided search feature of record

### Client Speak:

#### Mr. Kamal Deep Singh, Project Manager | J & K Bank

"We would like to thank FinDART onsite Team from Nelito and Banks project team for their relentless support on the project. I would like to congratulate all of you on the successful Implementation of FinDart Data Archival solutions in an efficient way at J&K Bank Ltd.

The business team of FinDART is very diligent and understood the needs and made the reports as per banks requirement. Moreover, FinDART Product is also flexible and the product delivery team was open to customize the product as per the needs of the business and hope the same support for future requirements as well.

The Nelito team for the project were very supportive and did a wonderful job for the project. We hope for the same co-operation and continuous support during the contract period as well. The hard work and dedication shown by Project onsite team (Nelito and Bank), during the entire implementation process including development, UAT and Go-Live support and addressing data migration observations is commendable and highly appreciated.

Once again, we wish you all the very best for all your future endeavours."
